

WHAT IS THAT THING?

God, I love his singing
Vibrato so refined
And man I dig that Cajun beat
It nearly drives me out of my mind
But I saw him on the TV
And something's out of place
What is that thing on Aaron Neville's face?

Yeah, what is that thing on Aaron Neville's face?
Is it a mole or a tumor?
Or a milk dud he misplaced
It's like a little desert island
The black hole of outer space
Yeah, what is that thing on Aaron Neville's face?

I wish I was half as successful
Or had a quarter of his cash
Cause you gotta know he's got the dough
To take care of that funky rash
I hope he never hears this song
Or he'll put me in my place
But what is that thing on Aaron Neville's face?

Yeah what is that thing on Aaron Neville's face?
It could be a smudge or a piece of fudge
A huge freckle out of place
Hell it could be melanoma
Get that spot erased
What is that thing on Aaron Neville's face?
Yeah what is that thing on Aaron Neville's face?
